

ADMINISTRATION OF FIRST AID POLICY

Under the *Education and Care Services National Regulations* the approved provider must ensure policies and procedures are in place for the administration of first aid (Reg. 168) and take reasonable steps to ensure policies and procedures are followed. First aid can save lives and prevent minor injuries or illnesses from becoming major. The ability to provide prompt basic first aid is particularly important in the context of an early childhood service where educators have a duty of care and obligation to assist children who are injured, become ill, or require support with administration of medication.
